### Setup DVWA

### Instructions

### About

## Database Setup

Click on the 'Create / Reset Database' button below to create or reset your database.

If you get an error make sure you have the correct user credentials in: `/var/www/html/config/config.inc.php`

If the database already exists, **it will be cleared and the data will be reset**

You can also use this to reset the administrator credentials ("**admin**" // **password**") at any stage.
